

SUSTAINABILITY INFORMATION

As part of our global society, we are reviewing our entire corporate structure to become a more responsible partner in today's world and help protect our environment.

CORPORATE BEHAVIOR AND CERTIFICATIONS

- Sustainability is a part of the culture at Teknoflor®
- Member of the U.S. Green Building Council™
- Platinum LEED Certified Customer Support Center in Calhoun, GA
- All of our manufacturing facilities are ISO 14001 certified
- FloorScore® certified
- Use of recycled products in our offices
- Use of Forest Stewardship Council (FSC) certified paper and soy-based inks

RESOURCE REUSE

- Developed water reuse practices in all manufacturing facilities

ENVIRONMENTAL BENEFITS OF PRODUCTS

- Highly durable
- Technologically advanced anti-static, anti-fungal, anti-bacterial, NO-WAX/NO-BUFF flooring system
- Nano-silver sterilization technology
- Requires less water, cleaners, chemicals and energy to maintain
- Unique highly durable embossed wear layer
- Adhesive contains low volatile organic compound (VOC)
- No trees are used for printed wood planks
- Products have a 12 or 8 Year commercial limited warranty

LEED ALIGNMENT

The majority of Teknoflor® products can contribute to attaining points in the Materials and Resources (MR) and Indoor Environmental Quality (IEQ) sections of the LEED Green Building Rating Systems.™ These point alignments are consistent across the suite of LEED Rating Systems including LEED for New Construction, LEED for Commercial Interiors and LEED for Existing Buildings.

LEED CREDIT	QUALIFYING DESCRIPTION	LEED POINTS
MR4 CREDIT RECYCLED CONTENT	Teknoflor collections contain from 20% to 71.9% recycled content. See next page for individual recycled content by product line.	1 - 2
IEQ CREDIT 4.1 Low-Emitting Materials -Adhesives and Sealants	Low-VOC; complies with SCAQMD #1168	1
IEQ CREDIT 4.3 Low-Emitting Materials -Flooring Systems	An alternative compliance path using Floor Score is acceptable for credit achievement. 100% of the non-carpet finished flooring must be FloorScore certified and must constitute at least 25% of the finished floor area. Examples of unfinished flooring include floors in mechanical rooms and elevator service rooms.	1

The FloorScore[®] program, developed by the Resilient Floor Covering Institute (RFCI) in conjunction with Scientific Certification Systems (SCS), tests and certifies flooring products for compliance with indoor air quality emission requirements adopted in California. Flooring products include vinyl, linoleum, non-PVC resilient flooring, laminate flooring, wood flooring, ceramic flooring, rubber flooring, wall base, and associated sundries. A flooring product bearing the FloorScore[®] seal has been independently certified by SCS to comply with the volatile organic compound emissions criteria of the California Section 01350 program. These flooring products qualify for use in high performance schools and office buildings in California. Thus, products with the FloorScore[®] seal have passed a third party certification process and are recognized as contributing to good indoor air quality in order to protect human health.
