

WOODLAND PATH™

COMMERCIAL LUXURY VINYL PLANK

rev: March 2014

LEED QUALIFICATIONS

TUF STUF™ Woodland Path Commercial Luxury Vinyl Planks can contribute to attaining points in the Materials and Resources (MR) and Indoor Environmental Quality (IEQ) sections of the LEED Green Building Rating Systems.™ These point alignments are consistent across the suite of LEED Rating Systems including LEED for New Construction, LEED for Commercial Interiors and LEED for Existing Buildings.

75% Post Consumer Recycled Content
100% Recycled After Use

LEED CONTRIBUTIONS BY SYSTEM

1. Our credits apply to NC (New Construction) 2.2, CI (Core & Shell) 2.0, EB (Existing Buildings 2.0) LEED Schools and LEED Retail
2. Our Recycled Content is sufficient to contribute towards MR 4.1 and 4.2 (Materials & Resources).
3. Our new tests demonstrate compliance with CA Section 01350, Proposition 65 and the California EPA Air Resource Board list of Toxic Air Contaminants. This means that our product should contribute towards EQ 4.3 of the NC and CI systems, and IEQ 4 of the LEED Schools/Retail, NC & Major Renovations systems.

SYSTEM-BASED CONTRIBUTIONS

LEED nc2.2 & CI 2.0	LEED EB 2.0	LEED Schools	LEED Retail
MR 4.1	MR 2.1	MR 4.1	MR 4.1
MR 4.2	MR 3.2	MR 4.2	MR 4.1
EQ 4.3		IEQ 4	IEQ 4
